About me

10 years of hands-on experience in insurance and marketing, working with data from the very start. After an intensive training at Le Wagon, I have full command of the data stack: Python, SQL, ML, NLP, LLMs via LangChain, GCP - with practical projects: text classification with BERT, end-to-end pipelines, deployment on GCP.

What I bring beyond that: I understand business constraints from the inside. I know what "making a database reliable" means for sales teams, and what a poorly defined KPI costs. I don't build models for the sake of building models.

I'm looking for a team that doesn't settle for "we've always done it this way", where these skills have a direct impact on the product, the business and the operational teams, and where technical curiosity is a value, not a bonus.

Experience

Data Manager

2020 - 2025

SPVIE Assurances - Suresnes

- Database structuring and reliability across the group (GDPR compliance, data hierarchy, access profiles)
- Definition and deployment of strategic KPIs; integration of new data sources
- Marketing targeting through behavioural, geographic and demographic segmentation
- Cross-functional liaison between business, sales and IT teams

Data Analyst

2019 - 2020

SPVIE Assurances - Suresnes

- Internal process auditing, operational reporting, sales performance monitoring
- Deployment and configuration of Salesforce and Pardot

IARD Account Manager

2017 - 2019

SPVIE Assurances - Puteaux

- Management of a 100 client portfolio, from individuals to large industrial accounts
- Risk assessment, contract structuring, negotiation with insurance companies

Communications Manager (freelance)

2015 - 2017

Stéphane Mahéas Couture - Paris

- Editorial strategy, press kit creation, production of print and digital materials

Earlier Experiences

2013 - 2015

Communications Intern - Publicis Groupe Digital Marketing Assistant - CIPRÉS Vie Events Coordinator - NewCorp Conseil

Education

Le Wagon

Online - 2026

Data Science, Machine Learning & AI Bootcamp

NEOMA Business School

Reims - 2012 - 2014

Master's Degree, Digital Communication (Grande Ecole)

ICP - Institut Catholique de Paris

Paris - 2008 - 2012

Bachelor's Degree, Social, Economic and Political Sciences
